Let It All Come Down By Simple Minds.

So let it all come,
Let it all come down
Let it all come,
Let it all come down
Sweet tears roll,
Like a river from your eyes
Get close,
Let's sleep tonight
When you wake,
There's a new day dawning
When you wake
There's a cold wind blowing
When day breaks,
There's a light that shines through
I'm still here when the day begins
I need you with me when the day begins
Let it all come,
Let it all come down
Why don't you

Let it all come,
Let it all come down
Love is in control
Love is on the open road
Maybe you want to live
Maybe you want to die
So let it all come,
Let it all come down

>From the L.P. "Street Fighting Years
