You can come inside

Come into the Naked Eye

My only world falls in again

I see your face fall in again

It's so dark

I don't know your name

It's so dark

And I don't know your name

Only mirrors lie only mirrors lie now

Only mirrors lie only mirrors lie now

Through the needle's eye

Through the needle's eye now

Only mirrors lie

Lie lie

You can come inside

Come into the naked eye

Naked

Naked

I feel so high

Going up on the wall

And you're down below me

Look all around look all around now

Look all around look all around now

Only mirrors lie only mirrors lie now

Only mirrors lie only mirrors lie now

Through the needle's eye

Through the needle's eye now

Only mirrors lie

Lie lie

You can come inside

Come into the naked eye

Naked

Naked

Just wanted a special view

Just me and you

Just just just the two of us

Just two of us

Going up on the wall

Up on the wall

Going up on the wall

Up on the wall

Naked Eye Naked Eye

What do you see

And what's there to learn

Reading your books

Third diagram

Someone's in the room down below

Someone someone

Someone below

Insects

Cherries

To the cherries

On the wall

Spider
