In your room

In your room

Silent man

Once again

The razor's song

The razor's song

Wear the mask

Another fave

In your room

In your room

City red

City red

Wear the mask

Wear the mask

A private hell

A secret sin

A friend of mine

Waiting for

A western man

Waiting for

New kind of glory

A view of glory

From this room

I only live here

I only live here

A fragile man

Waiting Waiting

Echoes...

I only live here

Echoes

In this room

Echoes
