Get in get out of the rain

I'm gonna move on up to the waterfront

Step in step out of the rain

I'm gonna walk on up to the waterfront

Said one million years from today

I'm gonna step on up to the waterfront

Get in get out of the rain

Come in come out of the rain

So far, so cool, so close, yet still so far

So far, so cool, so close, yet still so

So far [3X]

The rain

I'm gonna move on up to the waterfront

Step in step out of the rain

I'm gonna walk on up to the waterfront

Said one million years from today

Step on up to the waterfront

Said come in come out of the rain [3X]

I'm gonna move on up to the front

I'm gonna walk on up to the front

I'm gonna live on up by the front

I'm gonna walk on up to the front

Come in come out of the rain

Come in come out of the rain

Said come in come out of the rain

Come in come out of the rain

Move on up

So step on up

Walk on up

Live on up

File away [3X]

So, walk away

So far

I walk away

So, so, walk away

Up to the waterfront

Up to the waterfront

So far

So far
