Songtext: Trio - out in the streets

Out In The Streets

I am at home you are outside the cups high

Out In The Streets

swinging your hips with anyone having fun

flying high every night city lights so bright

Out in the streets every night

No Lovin Arms

how i miss your lovin arms to hold me tight

No Lovin Arms

no tender kiss you leave me alone each night

I do myself so tired from television is

uuh I'm feeling sorry for myself

Out in the streets you are not home

You Do not Come Home

Where were you in my nights

I said do not go I needed you so

Where were you in my nights

I said do not go I needed you so

Where were you in my nights

I said do not go I needed you so

And as the third verse comes up

watch out for the American subtitles

Out In The Streets

I'm behind the curtain at the window I were to Register

I'm at the window behind the curtain waiting for you

Out In The Streets

what should I do you come so I do not remember me

I know you will not come I think of myself

you do not care where i do not care at what I do

Out in the streets leavin me blue

Where were you in my nights

I said do not go I needed you so

Where were you in my nights

I said do not go I needed you so

Where were you in my nights

I said do not go I needed you so
