Once I dreamt to be home again
even for just now and then
while the rain fell down
waiting for a ray of light
A cold winds blowing night jessamine
and heather feels like your velvet skin
Youre embodied in
the gale that reaches our shore

At eventide were getting to the core
I see the wilderness and storms in your eyes

And youve changed my life
with your red-hot fire
youre my adrenalin
Like a burning sky
you can take me higher
youre my adrenalin
I see a brand new dawn
Yesterday is gone
Yes, Im remembering
And if the stars should fall
I wouldnt care at all
Youre my adrenalin
(Youre my adrenalin)

Your candle burns
in the deep dark night
Were walking through
the gardens of delight
while this world outside lies quiet
and the things we do feel oh so right
You touch my skin
make me shivering
breathe down your neck
raising trembling and
were entangled in lust
the wages of our sin

And were drowning
getting down, were burning bright

Were like two shining spirits in the night

And youve changed my life
with your red-hot fire
youre my adrenalin
Like a burning sky
you can take me high
youre my adrenalin
I see a brand new dawn
Yesterday is gone
Yes, Im remembering
And if the stars should fall
I wouldnt care at all
Youre my adrenalin
Youre my adrenalin

And we take refuge
with the dawning of the day
and the morning sun shines in your eyes

Oh, youve changed my life
with your red-hot fire
youre my adrenalin
Like a burning sky
you can take me high
youre my adrenalin
I see a brand new dawn
Yesterday is gone
Yes, Im remembering
And if the stars should fall
I wouldnt care at all
Youre my adrenalin

Oh you changed my life
with your red-hot fire
youre my adrenalin
Like a flaming sun
you got me on the run
youre my adrenalin
We see a brand new dawn
days of yore have gone
Yes, were remembering
Till the end of time
youre my perfect rhyme
Youre my adrenalin
My adrenalin
