### "Brainwash"

I was raised by a game computer  
A PC as my private tutor  
I could learn a whole lot more  
My brain used as a fucking whore

When I grew up you know what they said  
We're gonna put a chip in your head  
We don't need you but your mind instead  
Fuck off man I'm better off dead

Brainwash I don't remember how it was  
Brainwash you're not gonna chip with us

We're all part of the same machine  
I wanna stay me if you know what I mean  
Don't want to be part of your barcode system  
I want to stay me so I say fuck them
