Save it for someone who'll really make a difference  
Save it for someone who'll really understand  
I know that you care for me, I know it's been a long time  
since  
The first time that we touched our soft warm innocent  
sweet lips  
The day that you cared for me was the day that you  
met yourself  
In my heart, it is still there  
I still think and wish that sometimes we should be  
together  
But for one of us, it's never fair , yeah!

Please don't ever fall apart  
It was never all good from the start  
I know I am not the better man  
But I will always be your friend

Save it for someone who really has a better chance  
Save it for someone who won't try to get in your pants  
I know that you're scared of me I never had the chance  
to say  
The guy you're with don't fucking love her!

I told you not to care and not to ever think about  
If you don't want to be my friend  
You hurt yourself, you fell but your heart was still intact  
To call me up and cry, but now who's wrong? YEAH

I told you so... and I'm right
