As love is passing out  
what was it all about  
could you please explain?

I asked you twice before  
don't you love me anymore  
but you just smiled and touched my face...

The sound of falling rain  
like shards of glass  
Bloodstained!  
Why can't we be saved by the bell?

So strange it doesn't hurt no more  
Now that we've finally hit the score  
Guess everything must go!

Distractions of days gone by on the window pane  
You keep walking down that lane

Too bad we didn't have the heart  
to pass the test, not to depart  
and finish what we've started

Now we left everything behind  
pretending to make up our mind  
what kind of mind can be so blind?

Accusing me, not to forget  
You took the blame, a ricochet  
All things once good turned into bad

And even if I understand  
we couldn't meet our vast demands  
I doubt if anyone ever can

Streaks of lightning set the skies aflame  
The wedding bells toll for our love in vain  
Our joy, our laughter as we wane  
like distant shadows in the falling rain

A last distraction on my window pane

Why did I let you walk down that lane?  
Prematurely our love gave up its ghost  
abandoned us just when we needed it most

But somewhere out there in the night  
we're still standing side by side  
the nightwind calls  
and there's no going back  
no going back

Hold me tight for one last time  
though my heart feels cold as rime  
it's all over now  
no going back  
no going back
