I'm watching your reflection  
on the surface of the night  
Dreams are all that's left for me  
now you're hiding out of sight

No more skipping light fandangos  
cause our cartwheels cracked the floor  
I wish it could just rain forever  
there's no sunshine anymore...

Sometimes it almost feels alright again  
though it will never be the same

I still not dare to watch them all  
our pictures of the past  
so close to me as I recall  
all the suffering came at last

Remember when I told you  
about the dreams I had  
in those dreams you were leaving  
but you just smiled at me and said:

"Don't you see that you were made for me?"  
And then we threw away the key...

You walked through my door  
like she did before  
and now that you're here  
I want you to stay  
but in secret I fear

You'll leave through that door  
like she did before  
and all I can do  
is stand there beside  
all battered and blue

But maybe you'll stay  
just hold me and kiss  
my darkness away

Deep down inside  
A flame that still burns  
might light up my life

My love, tonight  
with your arms around me  
we might chase the light
