Last night, did you understand
How I trembled inside when you held my hand
And did you know when i'm alone
I always pretend that we are more than friends

And i'm dreamin' of your kiss when I lie awake in the
dark
Now i'm wishin' I could share the secrets of my heart

Chorus:
Cause you're there
Everywhere I go
In every face I see
Along this winding road
Endlessly
I'm so lost in love
I wish that you could know
I want you everywhere I go

I hear your voice goin' round in my head
No matter who's talking to me, I hear you instead
So here we are again, but not like before
I wanna give you so much more

If you're feelin' like my touch is growing stronger,
maybe it's true
I can't hide it from myself, how can I hide from you

Cause you're there,
Everywhere I go
In every face I see
Along this winding road
Endlessly
I'm so lost in love
I wish that you could know
I want you everywhere I go

If you're feelin' like my touch is growing
Stronger, maybe it's true
I can't hide it from myself
How can I hide it from you?

Cause you're there
Everywhere I go
In every face I see
Along this winding road
Endlessly
I'm so lost in love
I wish that you could know,
I want you everywhere I go

I'm so happy now
I finally found out
Tonight this love is letting go...whoa....ooh

If you're feelin' like my touch is growing
Stronger, maybe it's true
I can't hide it from myself
How can I hide it from you?

Cause you're there
Everywhere I go
In every face I see
Along this winding road
Endlessly
I'm so lost in love
I wish that you could know,
I want you everywhere I go

Everywhere I go
In every face I see
Along this winding road
Endlessly
I'm so lost in love
I wish that you could know,
I want you everywhere I go
ahhh..
I want you everywhere I go
ahhh..
I want you everywhere I go
ahhh..
