Uh...Show me your love

It feels so good...

Show me, show me that you love me  
Show me, show me that you want my love  
Show me, show me that you need me  
Show me, show me that you want my love

Feels so good knowing that you're mine  
All I want is to have you all the time  
Satisfaction is what I tend to do  
Your devotion is all I need from you  
My love for you grows stronger everyday  
In your arms is where I plan to stay  
I don't believe what my heart makes me feel  
All I know It feels so real

I believe in you
