I'm always thinking of goodbye, when I see her
I always try to catch her eye
I can't feel her
And I have waited for so long
It feels so right
It feels so wrong
'Cause I just die inside when she smiles at me

And all I want
Is what I have
When I'm with you what more could I ask for?

And could I keep you for myself?
Forever?
And have you always on my side?
Whatever?
And I'm weak but we are strong
It's in the stars we get along
I come alive inside for you
Believe me...

And all I want
Is what I have
When I'm with you what more could I ask for?
And all I have
Is what I want
When I'm with you what more could I ask for?

All I'm living for is a chance to be together
Just one moment of your time
Your time
Your time
Your time

And all I want
Is what I have
When I'm with you what more could I ask for?
And all I have
Is what I want
When I'm with you what more could I ask for?

When I'm with you what more could I ask for?
And I've got you
What more could I ask for?
