some bleed too much
some things are touched

take the time to fix yourself all up
taking time helps with your luck
you can bleed on the other hand
talking makes an easy chair a friend
crawling places just to stand
you can feed your mouth a plan

some bleed too much
i've seen it flood

you can set yourself on fire
burnings good when youre burning wood
it tastes the same with an overbite
breathing makes it easy to deny
sure is fun to sing about life
how much longer can this last?
my tooth is loose(x2)
take the time to fix yourself all up
my tooth is loose
taking time helps you with your luck
my tooth is loose
well you can bleed on the other hand
my tooth is loose
and talking makes an easy chair a friend

ba-ba ba-ba ba
my tooth is loose
ba-ba ba-ba ba
my tooth is loose
