

Tripping Daisy "High"

Visit "[High](#)" on MotoLyrics.com

Step on God, He can take it man
He's the one, I can look through when I'm down

He's the only for me when I'm high
He's the only one for me when I die
Well, I can't forgive Him for every word He said
Well, I'm standing at the hill and You are down

Step on the earth, it can give a man
It's the only one for me when I die
Give it all in the early morning

Stick and stones they cry for me when I'm high
Well, I can't remember every word He said
When I'm standing here just looking through the air
And I can't forget the times they've gone away

Well, I'm gathering the source and You're the way
