

Tripping Daisy "Tiny Men"

Visit "[Tiny Men](#)" on MotoLyrics.com

These little tiny men crawl on me
They can be loud at times
All I ever wished would come to me
In apple orchards filled with golden eggs
And people stand around in socks thinking that's it's
bad
But I will be older soon to take what I need from you
All this and more I see would come to me in apple
orchards
Filled with golden eggs and people stand around in
thoughts of Thinking that it's bad
Bubble made imagination took me for a ride
Where wonder plays a magic game and I learn how to
fly
But I will be older soon to take what I need from you
All this and more I see. I need
Tried hard to make it until making it got worse
I hope it gets better
