Sitting on a curved back couch  
My mind it rolls reminds me it was so easy  
Staring at the Christmas lights  
In a box that were once hanging on my tree

Proving once again that seasons change  
So do we, it's nothing new  
Similar to the love you find  
While kissing your first kiss, the world was blind

Trip along my mindless waveless thoughts they carry  
on  
Trip along my mindless waveless thoughts they carry  
on

The magic potion within my brain  
Painted pictures of everything  
The cat that barks, the dog that meows  
The bird that flies all around

Trip along my mindless waveless thoughts they carry  
on  
Trip along my mindless waveless thoughts they carry  
on

Sitting on a curved back couch  
My mind it rolls reminds me it was so easy
