(C. Bartney, U. Schikora)

People in love who stick together
They only live that strong
Birds and bees, they come on near
And share each other's love
They know we all have got same fight

Harmony you can see everywhere
In harmony, lend your hand and unite
In harmony, there's no need to fight
Harmony
Everywhere
Harmony
People share
Harmony
Let's unite in harmony

Just lend a hand to someone in need
(Lend a hand to someone in need)
Let your heart take the lead
(Let your heart take the lead)
The springtime knows when flowers grow
And don't you wonder why
What nature comes of me it's time

Harmony you can see everywhere
In harmony, lend your hand and unite
In harmony, there's no need to fight
Harmony
Everywhere
Harmony
People share
Harmony
Let's unite in harmony

[INTERLUDE]

Harmony you can see everywhere
In harmony, lend your hand and unite
In harmony, there's no need to fight

Harmony
Everywhere
