Original by: Optimal

As the sun lights the velvet summer sky  
And is gone leaving autumn in your eyes  
Yesteryears still I see your face once more  
On the pier where the tide runs into shore

Kimi ga suki, kimi ga suki  
Sweet as a summer romance  
Kimi ga suki, kimi ga suki  
Started with the casual glance  
I love you  
Kimi ga suki, kimi ga suki  
Stars in the sleepy lagoon  
The August moon faded much too soon

Promise me that you'll write me everyday  
From your school to my home near by the bay  
If I could I would walk a thousand miles  
Just to be where you are and make you smile

[REPEAT CHORUS 2X]
