One day it happened so fast, just like that  
Didn't know, just, what took a hold of me  
Somehow we seemed to connect, even though, we just  
met  
And, I knew it's meant to be

#### CHORUS 1

When you speak, your voice takes control of me  
I get weak, I can't sleep, into deep  
Why did you decide, to come in my life?  
Then you leave me all alone

#### CHORUS 2

Cause now there's no turning back  
I know we can't change the past  
I've fallen deep into your trap, now  
And I can't let go  
I thought that you were the one  
It's done and all in a flash  
I gave you everything I had  
Now there's no turning yeah.....

My mind can't seem to erase, or explain, what to place  
Your still such a mystery  
And all I do is just wait  
Even though, it's too late  
Please fade from my memory

REPEAT CHORUS 1

REPEAT CHORUS 2 (3X)
