If you can truthfully say  
That you've been true just one day  
Well that makes one in a row  
One in a row, one in a row

And if you can look into my eyes  
One time without telling lies  
Well that makes one in a row  
One in a row, one in a row

Why do I keep lovin' you  
After all the things you do?  
And just one time

Come into my arms  
And be glad that you're in my arms  
Well that makes one in a row  
One in a row, one in a row

Why do I keep lovin' you  
After all the things you do?  
And just one time  
Come into my arms  
And be glad that you're in my arms  
Well that makes one in a row  
One in a row, one in a row
