I am crazy most of the time
but I am simple in this restless mind of mine
give me something that can grow
a love that I will always know

you make this girl shine
almost all of the time
like a letter sealed with a kiss
this is a love I love to miss
and if only I could find
the type of words to describe
I'd probably take up all of your time
all your time

never mind the secrets that you keep
cause I wanna know what it takes to move the ground
beneath your feet
I wanna see a smile that laughs
let you have my better half
cause you make that girl shine
almost all of the time
like a letter sealed with a kiss
this is a love I love to miss
and if only I could find
the type of words to describe
id probably take up all of your time
all your time

I am shy most of the time
but I'm a quiet in this busy mind of mine
