Album: Eye Candy (2003)

Gotta the city pon lock
Mis-Teeq
Know how fi rock

Keep you bubbling every day and every night
We don't wanna see you argue
Fuss and fight
All we wanna do is dance and feel the vibe
Make you feel nice

DJ take back this track, hit them again the reaction is
phat
Hit them again are you feeling that?
Music is life it's a natural fact
The people with the power they make you feel poor
I wanna see the people on the dance floor
So here I come again with a lyric hardcore
I know I'm still raw but finding rhymes on deadline is
law
Taste entertainment you know you want more
With the vibing galore upon the dancefloor
The people go mad they make you explore
Different ways to reach an applause
This goes out for a worthy cause
Just move-a ya body, that's what it is for
Move-a ya body, the crowd's wanting more

You can't take us away from the music
Tantalising you can't refuse it
Beats b-line, move ya body
Don't you lose it
Dance til the morning comes

It's the weekend, no time for sleeping
We got ya body rocking, move to the track best
believing
Seeing is believing as I'm riding on this track
Mis-Teeq got the city pon lock
Sit down pon the riddem cos we know how fi rock

Gridlock, roadblock, the show never stops
As we take it back just for you my friend
Rewind fi al the gyal dem

Sometimes just gotta escape
Stay dreaming while you wake
No matter come what may
Turn the music up and
Dance your cares away

You can't take us away from the music
Tantalising you can't refuse it
Beats b-line, move ya body
Don't you lose it
Dance til the morning comes

Gotta the city pon lock
Mis-Teeq
Gotta the city pon lock
Know how fi rock
Gotta the city pon lock
