Caressing the anger
Nothing will ever be the same again
But you are most most beautiful
But you are most most beautiful

This is my destination
Left behind in desolation

But you are most beautiful
But you are most beautiful

Leave me
You talk like you know, but you don't
And it shows
She should have out-lived me
I listened before, but I'm not any more

So just leave me
I tried so hard
To find something that I
Could believe in
But there's nothing there
So there's nothing to feel
Who's gonna be here
If you want me to leave?
Who's gonna be here?
Caressing the anger
This is my destination
But you are most most beautiful
But you are most most beautiful

Leave me
You talk like you know, but you don't
And it shows
She should have out-lived me
I listened before, but can't any more

So just leave me
I tried so hard
To find something that I
Could believe in
But there's nothing there

And there's no-one who cares
Who's gonna be here
If you want me to leave?
Who's gonna be here
If you want me to leave?
Who's gonna let it
When you cannot make it stop?

Can you hang on for today?
