"Illumination"

Visit "[Illumination](#)" on MotoLyrics.com

What if you vote to change the world
It is time to let your voice be heard
Make a difference
Watch and you will learn

Don't you trust me
Say, don't you feel the way that I feel
A new direction is what we need
Don't you want justice
God bless the strong and brave and free
The wheels are moving
Be strong and believe

Man the noblest beast of all
Our fate is to lead
Some might say we've been misled
I'm dressed to make change
And Phil is always there
To tell you what went wrong
I'll feed you little pills
And you won't go astray
They'll help you on the way

Don't you hate it
We'll get the snake back under the heel
We'll bring back justice
Go spread the word
God bless this nation
God bless the strong and brave and free
We'll use the power and burst through the streets

The more they mock our way of life

The more the conflict escalates
Now they strike into our faith
We will sure retaliate

Master! Tell us what to do
Our minds are pure
Our hearts are true
Master! Speak to us of war
Will we be victorious

Children kneel with me and pray
You were blind but you will see
You must break the web of lies
And illuminate the sky

Words are wasted
I know you feel the way that I feel
God loves the faithful and hates the beast
We've brought back justice
God bless the strong and brave and free
We'll use the power and burst through the streets

Master! Tell us what to do
Master!

Alt tar slutt
Alt vil bli flammars rov
Love fornying nÅ¥r klokke slÅ¥r
LÅ,fte du blikket
Alt som er dÅ,dt forgÅ¥r
Alt som har skjedd vil skje igjen
