Lost

Hard...

I'm harder than the life I've lived

Strong...

I'm stronger than the pain you give

It's lost...

So lost

The world you're in

The life you live

I see the lies

The darkside of the smiles you give

I'm one

I'm anyone you like me to be

I'm gone

Whenever you would like to be free

Old...

I'm older than the years I've lived

Cold...

I'm colder than the smile you give

My life has been the dreams you say I'm living in

How long will you be lost, my dear

When will you give in?
