Shadowcast upon my heart
Endark... thy bleak midwintertears
Condemned to mourn in silence
The pale moonrise in her eyes
Serene... like a frozen stream
The flowing beauty in thy tears
I crave for thee my once beloved
Beyond... the veils of darkness lost
Where now thy roses wrapped in dusk
Dark enchantress
I suffer thy fullmoonights
Trespass my undesired darkness
Tears... flowing through thy dreams
Dark enchantress
The seventh fullmoon rise
I drown in dusk and dark rivers
Summon all my dreams
Like roses on your epigraph
Written in my tears
Thy sorrow and my bleeding heart
She comes to serene
My fallen beauty crowned with leaves
Take me to thy dream
Thy candle will forever burn in me...
