When they see you walk bye i'll be by your side

Cause I know thats where I want to be

will you believe me when I say

you can lead the way

cause you are part of me

please beleive me

you could lead the way to my heart

you could lead the way to my soul

but you can't take back what you've given to me

your endless love

(Instument Break)

you can lead the way to my heart

you can lead the way to my soul

but you can't take back what you've given to me

your heart your soul and your endless love love
