Take my heart, I lay it out before you in my song  
I play my part and hope against all hope you play along  
Take my heart, take this magic from my mind  
Take my heart, take the dreams you always hoped to  
find

Take my song, take my heart  
Give my dreams a chance to start  
Take my song, take my heart, take my love

I wear a song to mask my awkward face  
The music helps to fill the empty space  
I wish that I could hide it all away  
Instead it shows in every note I play, and I play, and I  
play

Take my song, take my heart  
Give my dreams a chance to start  
Take my song, take my heart, take my love
