Everybody welcome to the show
I gotta message that you oughta know
Stand in the aisles, stand on the seats
Clap you hands an' stomp your feet

Tonight we're gonna raise some hell
Time to jump and it's the time to yell

Tear the roof off tonight
Tear the roof off tonight
The fuse is ready to light
Tear the roof off tonight, yeah

Oh yeah, listen, if you got the time
I see a lady, she's at least a nine
She's ready to rock, ready to roll
C'mon girl, let's lose control

Stick with me an' you'll feel alright
As long as you stay for the show tonight

Let's tear the roof off tonight
Tear the roof off tonight
The fuse is ready to light
Tear the roof off tonight, yeah

C'mon baby, shake me up
My head is spinnin' like a top
I got me a rock and roll machine
Let's hear you shout, hear you scream

Tell me that you love me
Like I knew you would
The party here never felt so good

Let's tear the roof off tonight
Tear the roof off tonight
Fuse is ready to light
Tear the roof off tonight, ooh yeah
[Incomprehensible]
