[Verse]

At night she cries, she feel the pain
Her love has left, and gone away
She sits and wonders will things change
to you here is what I have to say

[Chorus]

You dont have to be alone,
I am always here for you.
You dont have to be alone,
All you have to do is call.
You dont have to be alone,
I will always be around.
You dont have to be alone,
Alone, alone, alone, alone, alone, alone.
You dont have to be alone.

[Verse]

Tonight we'll wipe your tears away
I'll share your hurt, I'll share your pain
When you call I'll run through snow and rain
Now on my knees, here's what I'll say

[Chorus] (x2)
