Mistaken Identity
You really got this one wrong
Racially singled out
He must have a gun
And yet
You get
Off with
No time

How can this be the answer?
No crying in the shadow way*
Realise that the
Blood is on your hands
Hands which were supposed to protect
People like the man you blew away
This isn't justice
This is corruption
The four protecters
Fired 41 shots
Hitting him 19 times
Searching the body
There were no weapons found
He lies with all who died in vain

But there must still be a crime
We're all hearing freedom*
Is equally cut down
By who we trust

And yet
You get
Off with
No time

How can this be the answer?
No crying in the shadow way
Realise that the
Blood is on your hands
Hands which were supposed to protect
People like the man you blew away
This isn't justice
This is corruption

The four protecters
Fired 41 shots
Hitting him 19 times
Searching the body
There were no weapons found
He lies with all who died in vain

Contempt breeds contamination
Contempt breeds contamination
Contempt breeds contamination

How can this be the answer?
No crying in the shadow way
Realise that the
Blood is on your hands
Hands which were supposed to protect
People like the man you blew away
This isn't justice
This is corruption
The four protecters
Fired 41 shots
Hitting him 19 times
Searching the body
There were no weapons found
He lies with all who died in vain

Contempt breeds contamination
Contempt breeds contamination
Contempt breeds contamination
