Could someone please erase me
Take my body from this hell
I don't know how it started
But I sure know how it fell
We dug our graves real deep
Surrounded by our moats
Such a shame, oh such a shame
Our sins won't help us float

I'm leaving this world behind
Making up for all our crimes

I'm leaving this world behind
Making up for all our crimes

I'm leaving this world behind
Making up for all our crimes
I'm leaving this world behind
Making up for all our crimes
I'm leaving this world behind
Making up for all our crimes
I'm leaving this world behind
Making up for all our crimes
