I was so empty
Self loathing
Before you awoke me
Lived in transgression
Feasted sin
Destroying all I stood for

A world with spreading disease
They stood for infidelity
They Force feed on their sip of sickness
The prophets hiding their rage
Just sucked out some of the pain
That takes this world into
Lovelessness

All the pain in this world
Won't stop us now
For we have each other
All the hate in this world
Can't tear us apart
This love is forever

In arms we'll turn away
From their ways
We'll live like no other
Together we're hope
Absolute
The only thing that matters
A world with spreading disease
They stood for infidelity
They Force feed on their sip of sickness
The prophets hiding their rage
Just sucked out some of the pain
That takes this world into
Lovelessness

All the pain in this world
Won't stop us now
For we have each other
All the hate in this world
Can't tear us apart
This love is forever

All the pain in this world
Won't stop us now
All the hate in this world
Can't tear us apart

All the pain in this world
Won't stop us now
For we have each other
All the hate in this world
Can't tear us apart
This love is forever
