"Breathe"

You are the one that I love.
You're the star.
Everything is so deep when it comes to you.
I wanted to tell a story.
And give the glory....
...to you.

Chorus:
I want to breathe with you.
I want to stay by your side.
You shouldn't go baby.
When it comes to you.
I wanna breathe.

Let people know it's dark.
And lead them right.
Because you're the starlight.
When it comes to you.
I wanted to tell you...

Chorus.

Let me see that big diamond ring.
The big city burning out.
Let me see the stars.
And hide what's new.
When it comes to you.

Chorus.
