One day I see your face before me.
I'm standing right beside it then.
The second day I don't see you next to me anymore.
Where are you now baby?

Chorus:
In these sixteen days I fell into a darkness.
In these days I knew I followed you.
Sixteen days are much you say.
But nothing's in my way.
To go another sixteen days.

The third day in that universe I'm singing.
I'm singing these words of hope.
The forth day I'm not singing anymore with you babe.
Where are you now honey?

Chorus.

I love you, I need you.
You are the one for me.
I feel you, I see you.
Walking the isle with me.
