Vers 1:

I sit and wait and wonder where she's been today.
I never knew she will never come back.
She had a greatful life with love and power in.
And I feel that she had peace in her weak heart.

Refr  ng:

Valerie, can't you come back to me.
Can't you realize that we all need you home.
Valerie, can't you hear those engines drone.
Into the river of life.
Oh Valerie.

I sit and wait and wonder where she had her life.
But I saw it was a reason to her death.
But if she just found Jesus on the way back to life.
I feel that she's been living here today.

Refr  ng.

Stick:

Valerie, she's gone now.
Valerie she is dead.
She will never ever come back.
Put her face in the sand.

Refr  ng
