Rats, monkeys, mice. Teach 'em little tricks  
Stay far from creativity and from politics  
'Cause the multinationals need a solid work force  
Or their growing profit margins will be wiped out at the  
source  
Conform to the status quo  
Set rules hold your mind into their fucking tool

Reciting back their facts and numbers  
That don't make you smart  
There's much more to intelligence  
And thinking for yourself would be a start (start)  
Yea it would be a start (start! )  
It would be a start (start! )  
Yea it would be a start (start! ) - Start!

Pledge allegiance to a flag of which you're taught no  
history  
Not Mexico, Granada, Panama, or Middle East  
But they're just a mere fraction of this country's shady  
past  
Skeletons locked in the closet and I doubt they'll be the  
last  
"National interest" defined for you  
But who's it really serve?  
Who's getting screwed?

Reciting back their facts and numbers  
That don't make you smart  
There's much more to intelligence  
And thinking for yourself would be a start (start)  
Yea it would be a start (start! )  
It would be a start (start! )  
Yea it would be a start (start! ) - Start!

Your prison warden is your school  
Training you to be a social screw  
Stage a jailbreak, swim against the flow  
Show those motherfuckers what you know!

I feel like I am suffocating  
I feel my life depreciating

I know their teachings are riddled with lies, distortions,  
shit!  
It kills me knowing the masses are so brainwashed by it  
- brainwashed by it!
