10 easy steps to create an enemy and start a war:
Listen closely because we will all see this weapon used
in our lives.

It can be used on a society of the most ignorant to the
most highly educated.

We need to see their tactics as a weapon against
humanity and not as truth.

First step: create the enemy. Sometimes this will be
done for you.

Second step: be sure the enemy you have chosen is
nothing like you.

Find obvious differences like race, language, religion,
dietary habits

fashion. Emphasize that their soldiers are not doing a
job,

they are heartless murderers who enjoy killing!

Third step: Once these differences are established
continue to reinforce them
with all disseminated information.

Fourth step: Have the media broadcast only the ruling
party's information

this can be done through state run media.

Remember, in times of conflict all for-profit media
repeats the ruling party's information.

Therefore all for-profit media becomes state-run.

Fifth step: show this enemy in actions that seem
strange, militant, or different.

Always portray the enemy as non-human, evil, a killing
machine.

[Chorus:]

THIS IS HOW TO CREATE AN ENEMY. THIS IS HOW TO
START A WAR.

THIS IS HOW TO CREATE AN ENEMY.

Sixth step: Eliminate opposition to the ruling party.

Create an "Us versus Them" mentality. Leave no room

for opinions in between.

One that does not support all actions of the ruling party should be considered a traitor.

Seventh step: Use nationalistic and/or religious symbols and rhetoric to define all actions.

This can be achieved by slogans such as "freedom loving people versus those who hate freedom."

This can also be achieved by the use of flags.

Eighth step: Align all actions with the dominant deity.

It is very effective to use terms like, "It is god's will" or "god bless our nation."

Ninth step: Design propaganda to show that your soldiers

have feelings, hopes, families, and loved ones.

Make it clear that your soldiers are doing a duty; they do not want or like to kill.

Tenth step: Create an atmosphere of fear, and instability

and then offer the ruling party as the only solutions to comfort the public's fears.

Remembering the fear of the unknown is always the strongest fear.

[Chorus (repeat)]

We are not countries. We are not nations. We are not religions.

We are not gods. We are not weapons. We are not ammunition. We are not killers.

We will NOT be tools.

Mother fuckers

I will not die

I will not kill

I will not be your slave

I will not fight your battle

I will not die on your battlefield

I will not fight for your wealth

I am not a fighter

I am a human being!!!
