Get ready to - make a stand
Get ready to - make a stand
Cause if - we don't- fuckin' - do it
Then no one's going to! no!

Thousands - homeless - in the land of the free
Have you seen the scene on the street?
Do you care what's - going on?
But no one seems to think it's wrong!
That's why we fuckin'wrote this song

Chorus:

Take to the streets - cause it's time to make a stand
We're not gonna back down!
When the standards of - society
(we're talking...) culture revolution!
This ship is sinking - it's time we set it right

Are based - solely on greed

What it means to succeed! no!
Humanity - compassion - do not define
For the poor - contempt and hate
From the rich - middle class, the state
That's fuckin' real hard to believe...
The greatest nation ever seen?
Compassion - dumped for - apathy
Socialized - socialized, mechanized - mechanized
To consume... everything in the world
Saturate - saturate, accumulate - accumulate

Your happiness... can be bought and be sold
Environment - environment, detriment - detriment
Humanity - humanity, or this insanity - insanity
Is not... an issue of concern
But you won't be alone
No, you won't be alone... YEAH!
The choice is yours, and your choice alone

Revolution! on the street! in your head! move!
