We have no rights and i am pissed
The bill of rights does not exist
This whole system is a lie
This system we should defy

Class Plague [x4]

Society the one we hate
Stop corruption it's too late
This whole system is built by the rich
Its time we should dig their ditch

Class Plague [x4]

Society separates more and more
The rich are getting richer, the poor are getting poorer
Capitalism's time to fall has come
It's time we should have revolution

Revolution, it's time to over throw
Revolution, let's hit them with a blow
Revolution, seal our fate
Revolution, it's time to make the rich pay
