The call, the call, heed up and you will fall  
The call, the call

(No warning)  
I write in white on the black block  
(No warning)  
Time bomb contemporaries tick-tock  
(No warning)  
I write in white on the black block  
(No warning, no warning)  
This is critical mass destruction

Pro-active Communista sin documentos  
(This is the call)  
The anarchist conspirators are downloading their  
cookbooks  
(This is the call)  
Keep your politics out of my apathy  
(This is the call)  
This is the same sad and boring melancholy story

(No warning)  
I am a parasite, I am a hypocrite  
(Hypocrite)  
It's not an option to be pragmatic  
(Matic)  
We live and die by opinion public

(No warning)  
I write in white on the black block  
(No warning)  
Time bomb contemporaries tick-tock  
(No warning)  
I write in white on the black block  
(No warning, no warning)  
This is critical mass destruction

There is no room to grow inside this cage  
They cannot know the animal that they bred out of rage  
I heard that fucker's hungry and he loves the taste of

flesh  
Ripped from the bone of the close minded ignorant

(No warning)  
I am a parasite, I am a hypocrite  
(Hypocrite)  
It's not an option to be pragmatic  
(Matic)  
We live and die by opinion public, oh yeah

The call, the call, heed up and you will fall  
The call, the call, heed up and you will fall  
The call, the call, heed up and you will fall  
The call, the call

(No warning)  
I write in white on the black block  
(No warning)  
Time bomb contemporaries tick-tock  
(No warning)  
I write in white on the black block  
(No warning)  
Time bomb contemporaries tick-tock

(No warning)  
I write in white on the black block  
(No warning)  
Time bomb contemporaries tick-tock  
(No warning)  
I write in white on the black block  
(No warning, no warning)  
This is critical mass
