The Berlin Wall falls in the East
The West claims triumph, "We've really got 'em beat!"
Politicians from the West claim the police state's dead
But what of the police state in the West?
Police State in the U.S.A.
Facism with a friendly face
Police State in the U.S. U.S.A. U.S.A. U.S.
The government controls everything you do
With police and the feds watching over you
You try to stand against them and you'll end up dead
As your front door is smashed in by the ATF
Police State in the U.S.A.
Facism with a friendly face

Police State in the U.S. U.S.A. U.S.A. U.S.
One, two, three, four
Your television screen shows the feds most wanted
But do you truly know why these men are being
hunted?
It's a big brother state it's the same as the East
The cops protect the rich and corporate elite
Police State in the U.S.A.
Facism with a friendly face
Police State in the U.S. U.S.A. U.S.A. U.S.A.
Police State in the U.S.A.
Facism with a friendly face
Police State in the U.S. U.S.A. U.S.A. U.S.A.
