Nailed to the cross, dead for collective sin
We decide where, why, who and when
Build our bibles to ONLY include
The things that we believe to be divine and true
This is our right
This is our life
Everyone homogenized

Sodom, Gomorrah, Washington D.C.
Smited into oblivion with blood, wrath and disease
Sheep in shepherd's clothing

Allah, Jesus, and Muhammad
Their words have way more in common
Than the Midwest or the Middle East like to preach
It's a tragedy
It's a strategy
To prey on contrast, to not indulge fact
Divide, conquer and subcontract

Sodom, Gomorrah, Washington DC
Smited into oblivion with blood, wrath and disease
Sheep in shepherd's clothing
Sheep in shepherd's clothing

Hey! The scriptures (hey!) blind followers read (hey!)
Are not as cryptic as they seem (hey!)
The pages (hey!) serve the sick and the poor (hey!)
Not to serve the capitalists of endless war

Sodom, Gomorrah, Washington DC
Smited into oblivion with blood, wrath and disease
Sheep in shepherd's clothing
Sheep in shepherd's clothing
Sheep in shepherd's clothing

Religion is the opium of the meek
