They feed us brainrot, and tell us that it's true
Dan Rather is reporting something but it isn't news
It's molded, and folded, and beamed into your home
The next minute you find yourself dying for fucking
oil...

Immediate - Reaction, to the brainrot in your mind
Immediate - Subtraction, to the time left in your life
Immediate - Reaction, to the brainrot in your mind

Immediate - Substraction, but all we really want,
all we really want, is truth

Bred into silence by television sets
Accepting lies from media so soon we will forget
The lives that we spend as workers for the rich
You work so much there's no time left to realize
that you're in a fucking ditch
