All night out on the streets
I got the back of all my friends
We never want to go back home
Never want the night to end

Because we want to be free
We want to be free
We want to be free
We want to be free, free, free

We want to be free
We want to be free
We want to be free
We want to be free, free, free, free

The schools that they send us to are prisons
The same can be said for their churches too
I don't want my mind or my arms tied in bondage
I don't want to be another cloned state tool

When I'm with my friends, when I'm at a show
That's when everything is okay
That's why I follow my heart every single day
Single day, every single day, everyday, everyday
