Boomb boom boom
America blown to smithereens
Your friends, your home. your family
Boom boom boom, smithereens!
I wish i could say this was unforeseen

Well they're planting the seeds
On destruction's eve
Then take away your rights to keep you free
Yeah they're planting the seeds
On destruction's eve
Then take away your rights to keep you free,
On your knees
Still the vengeance of the world will target you
Down on you? down on you!

Our flesh turned to ash will scatter in the wind

Boom boom boom
Such a wicked force you had never seen
Though countless times it happened in your name
Boom boom boom
Your apathy come with a price tag it seems

Well they're planting the seeds
On destruction's eve
On destruction's eve
Then take away your rights to keep you free
Yeah they're planting the seeds
On destruction's eve
Then take away your rights to keep you free,
On your knees
Still the vengeance of the world will target you

When you don't control your government, people want
to kill you
