And so the time has finally come
The bourgeoisie have signed the war decree with
Proletarian blood
And that blood which flows from their pen
Is the closest that they're ever been to the people...
You've been to our shows, you've sung our songs
Now we are asking you to add to each chorus you've
sung and...
Protest against: injustice, state terror
On the streets of the world for the dis-empowered
You've sung at our shows, cheered right over wrong
Now's the time to hit the streets back up the words
you've sung
'cause our voices alone this time will not get it done...
Looking to stop a rouge regime?
Well the first one that we must suggest is
WASHINGTON DC!
The Bush "Terror War", UNCONSTITUTIONAL,
UNCONSCIENTABLE
We refuse to let him kill in our name for oil
We know their game, know they're corrupt
It's up to hit the streets and take our country back!!!
Protest against: injustice, state terror
On the streets of the world for the dis-empowered
You've sung at our shows, cheered right over wrong
Now's the time to hit the streets back up the words
you've sung
'cause our voices alone this time will not get it done...
Because united the people will indeed get it done!
