(Trnqvist/Svenre)

(You) walk in the room, quietly look around
Sugar, straighten your tie

Satin and steel, what are you waiting for,
come and give us the eye

It's hard to be a loner
Hard to be a loner
Hard to be a ladies man
Easy come, easy go

Oh, what a night, was there a night like this
Have I met you before

Oh, what a smile, was there a smile like yours
Let me pour you some more

It's hard to be a loner
Hard to be a loner
Hard to be a ladies man
Easy come, easy go

Many hours from now,
they'll run on the lights
The moment of truth
What are you waiting for

solo

It's hard to be a loner...
