(Trnqvist/Svenre)

At last it ended, this awkward day
You're sleeping now by my side
I said I'm finally here to stay and
Everything is fine, everything here is just fine
Now that you're mine
Forever more

Let's shut the windows and lock the door
Let peace and quiet remain
Serenity will rule once more
Everything is fine, everything here is just fine
Now that you're mine
Forever more

Listen to the sounds far away
Hear the song that says come what may
Listen to the night and stay put where you are

Acting the ever-after part, happily will connect
No more sore and tormented hearts 'cause
Everything is fine, everything here is just fine
Now that you're mine
Forever more

Take a stand and make an effort
No more fairy tales
Make this place a peaceful resort
It's signed and sealed

Listen to the sounds far away
Hear the song says come what may
Listen to the night and stay put where you are

Everything is fine, everything here is just fine
Now that you're mine
Forever more
